The annual photo contest will be held at the regular August meeting. The criteria for the contest will be available by the show on July 10th.

## MODEL CONTEST

A reminder about those models we purchased last year. We will hold a model contest at the September meeting for the best model built from that kit. In order to prepare for the contest, workshops will be held at the Tallahassee Mall Storefront on two Saturday mornings, one in July and one early in August. Both N and HO will be demonstrated and assistance provided.
